

Site Highlight:

StrawPoll (<http://www.strawpoll.me/>)

Quickly gather student feedback or gauge student understanding.

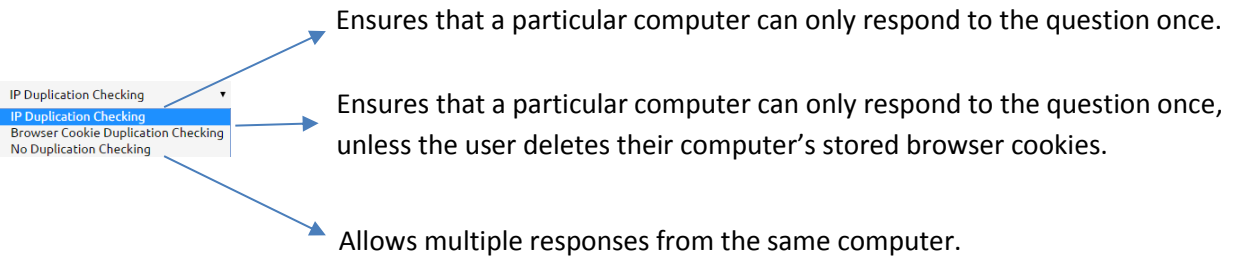

1.

Navigate to the site and enter question/answers.

2.

Decide whether you want to limit the number of times a particular user can answer the question.

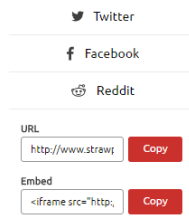

3.

Decide if multiple poll answers are allowed.

4.

Create your poll and then either share the URL or embed the poll on your website.

5.

Check the results. Note that you may want to create an account so that your results are saved. Otherwise, keep the page open in your browser until all your responses have been collected.
